

Driving Directions to Table Rock from Philip S.W. Goldson International Airport, Belize City

Total Estimated Distance: 74 miles

Total Estimated Driving Time: 2 hours

**SPECIAL DRIVING NOTES:

- Most of the highways are narrow and poorly marked and all are only two lanes wide, so driving at a reasonable rate of speed is encouraged.
- Passing is legal and is commonly done with abandon. Be sure to watch for other vehicles passing in both directions. If you choose to pass another driver, it is recommended that you drive with your headlights on and use your turn signals so that others can see you. Also, passing drivers may beep their horn at you as they pass. They aren't being rude, just letting you know that they are coming about.
- Around all towns and villages speed bumps, rather than traffic lights or signs, are used to slow traffic. There are dozens of these bumps during this drive and they tend to be ill marked, so watch out for them as you approach population centers.
- Police Check Points: Occasionally, there the authorities will have traffic cones and police stopping vehicles on the highway. No worries here, they are only checking for license and insurance!
- **Gas Stations & Restrooms:** 1) Shell Station, as you exit the International airport on the Left; 2) CDS Gas, few miles after the turnoff to Burrell Boom Bypass; 3) Hattieville, at the bright green Everyday Store on the Right; 4) Puma, after the Belmopan Roundabout 5) Santa Elena, CP Station on the Right just before the turnoff to the road to Table Rock.
